In Towns About

Arkanaas City.

From the Daily Traveler. John Wilkin was parading the streets this morning carrying an tron dingus, with chain attachments. All the town fellows were wondering what in thunder John was carrying around. Several of the young fellows who think they know a farm when they see it enlightened varlous people upon the subject. One said it was a patent hay stacker, another a calf weaner, another a grain drill, another a contraption to ring hoge with, and another a patent churn. Jim Masters came along and said it was a machine for stretching wire, and that is what John said. These town fellows are from the country.

case was called.

ley and Floyd Wilson, formerly of Solon, 1892. Me. Ten years ago they grew tired of the meager chance of making money in Maine and went to Oregon. From there they drifted up the Yukon and are now at Klondike, getting lots of gold dust. James M. Clark of Caldwell last winter purchased a farm from James Angus account of \$1,200, expenses not consid-

AMERICAN LEATHER AND BACON In England the Former Bules the Market

and the Latter Dees Not. Washington, Oct. 8 .- Consul Lathron, in a report to the state department, some information concerning United States products in England, He \$130 the United States, Canada and Denmark supply England. The United States enjoys more than half the trade, in 1896 sending 2,751,518 humbred weight of 112 pounds. During the first six months of 1897 there was a large increase in the shipments from this country, amounting to 1,830,162 hundred weights. The report notes that there is a searcity of pigs in England and in Denmark and says that the United Stat's and Canada are expected to keep up the increased shipments. The finestgrades of English bacon sell for 15 to 17 nts per pound wholesale, Canada and Danish II and I4 cents, and the United States at from 6 1-2 to 8 cents. These differences in price are constant. The highest prices of American bacon do not even touch the lowest quotatoins for Canidian and Danish. The difference is in quality and suitability to the taste of the market. Canada and Denmark have made a careful study of the needs of the English market and have gone

sted values are the result. Leather is a product which hase made en appreciable advance in England, The colored leathers of Coleago and Milwantee have had the largest sales, Gla e goat and sheep leather from Pennsyl ania have also found an enlarged ma ket, almost entirely at the expense of he French and German manufacturers. The United States has supplied a better arricle at a less price. There has also been an improvement in fancy jea-the s from Novark, N. J. Dealings in cotton goods are delayed by weakness in raw cotton, but neither print cloths nor other goods have quclined since last week, and although the mills are not quite fully employed, a with reason expected.

Fallures for the week were 212 in the United States, against 296 last year, and 29 in Canada, against 46 last year.

BRADSTREET'S REVIEW. New York, Oct. 8 .- Bradstreet's

morrow, October 9, will say: Distribution of general merchandise in the central west and northwest is further checked owing to the prolonged drougth in Kentucky, Illinois, Kansas, and portions of Missouri, Nebraska, Iowa, Minnesona and the Dakotas. Telegraphic advices to Bradstreet's report serious damage in Kansas and parts of Nebruska and Iowa where early planted wheat is up but that planted later is not likely to sprout. Fall plowing is now impossible, six weeks without rain have dried up pastures and compelled far-

Manufacturing industries throughout the west, particularly fron and steel, continue active and there is an increasing tendency on the part of the interior merchants to remit promptly. the volume of trade has decreased at Chicago, it is ahead of the like record in ket on cotton and the alleged injury to the recent years. There is a moderate improvement in business in the south, Alabama having raised the quarantine against Georgia cities, and central and northern Texas points havinf resumed commercial relations with Galveston. Planters continue to hold cotton, which

delays collections. Higher prices this week are reported for cotton, which has been declining for some time; coal and clothing in symptthy with wool; for naval stores, under heavy purchases by large traders, and for wheat, wheat flour and eggs. Print cloths, lard, beef and sugar have declined. Hides are weaker, lead is lower and Bessmer pig sold off 50 cents a ton under heavy speculative offerings, notwithstanding the iron and steel markets

as a whole remain active and firm. Experts of wheat (flour included as wheat) from both coasts of the United States and Canada this week show a heavy falling off, aggregating only 4,-835.641 bushels, against 5,834.000 bushele - Hn, Oct. &-Emperor William has last week, but compared with 4,050,000 inferred the Louis order upon his sis- bushels in the week a year ago, 2 224,000 ter, the crown princess of Greece. WOOL MARKET

Boston, Oct. 8.-The Boston Commercial Bulletin will say tomorrow of the wool

The demand for wool has dropped off sympathy with a quiet and good market and while the sales are still much above the average, a quieter tone prevails. Prices continue to advance on fine wools. The London auction prices have advanced 5 per cent since the opening, and prices of Auscontinued increase in consumption is train here have not even risen enough to encourage much importing. Ohio XX has advanced to 20 cents. Scoured stable fine medium territory has advanced to 55 cents. Quarter blood wools, both foreign and domestic, are neglected. They have not advanced. The sales of the week are:

hardening tendency at times.

DET GOODS MARKETS.

today shows a gathering strength in all very handsome showing, those of the cotton lines, due to the strengthened mar-New York Central for September being cotton crop. This is particularly noticea-ble in print cloths and other staple cottons of the company. The rush of grain at of similar grades. Reports of distribution at second hands in various parts of the i country will continue favorable, and retail off in eastbound traffic is commensated ers are said to be enjoying a period of art for by the increasing volume of gesttivity in all seasonable lines of goods. The bound miscellaneous and merchandine sales of the week, on a bias of the cents for freights. The activity of business in extras, have been heavy and bid fair to various sections also has its effect, and Woolen and worsted gods show no change

from their previously strong condition.

AT THE STOCK MARKET.

Effect Being Only Disappointment to th Buils, Showing a Case of Misplaced Confidence in the Booving Effect of the Long-Expected Setting of the Gold Tide Westward-Dealings Limited, and Confined Largely to the Irdustrials-Changes Mainly Gains-Details of the Gold Movement-Beview of the Week.

New York, Oct. 8 .- The bulls were apparently impressed with a belief at the opening of the stock market today that he beginning in force of the important movement of gold would effect a turn in the market and send prices up again, after the long sustained reaction. Their confidence was dissipated very soon after noon, and the market became almost lifeless. Business was of the lightes possible description and the fluctuations prominent stocks being entirely neglected. Total sales for the day for all stocks were only 250,000 shares. The bears have apparently come to the end of their campaign, and there is no large buying contingent ready to take stocks even at the low level. The market seems, in fact, to have swung to a standstill. The announcements made today of gold engaged for import footed up a total of \$4,350,-000, and of this amount all but \$1,200,000 comes from London. Today's engagement of \$1,500,000 in Paris is the first to come from that center on the total movement, which now foots up \$8,150,000. This is entirely at variance with all the prophesies made by the financial authorities who have forefold that London could easily be able to shift the demand for gold from the United States upon Paris. London has apparently viewed with great equanimity the increasing demand upon its gold reserves. The Bank of England has gone on expanding its loans in face of the continuous drain upon its gold and no change was made on Thursday in its rate of discount. The open market discount rate in London has remained about steady up to today, when was true in Paris in response to the gold engagements. The effect in New York, while it was almost unappreciable on the stock market, was perceptible on the money and exchange market. Time money was distinctly easter, rates being lower at 3 per cent for sixty days and up to 4 per cent for four and six months. Actual rates of sterling exchange advanced ½ per cent and posted rates 45 cents.

THE RISE IN SILVER.

New York, Oct. 8—Silver scored a vanced ½ per cent and posted rates 45 cents.
